## STATE LEGISLATIVE UPDATE

### Assembly Hearing on King/Drew Medical Center

The Department of Health Services (DHS) has received the attached letter (Attachment I) from Assembly Member Dymally rescheduling the hearing of the Assembly Select Committee on King/Drew Medical Center, scheduled for Tuesday, September 16, 2003, at 10:00 a.m. in the Lecture Hall of the King/Drew Magnet High School, 1601 East 120<sup>th</sup> Street, Los Angeles. In a follow up letter (Attachment II), DHS is requested to respond to specific questions regarding the recent Drew University accreditation problems and to submit a copy of oral testimony prior to the hearing date.

### Pursuit of Position on Legislation

**SB 130 (Chesbro)**, as amended on September 2, 2003, declares the intent of the Legislature to achieve a reduction in the use of seclusion and behavioral restraints in mental health care facilities. The provisions of this measure would be required to be implemented only if they can be achieved within existing resources, or if additional funding becomes available.

SB 130 would require the California Health and Human Services Agency to lead and coordinate the reduction in the use of seclusion and behavioral restraints in facilities that are licensed, certified, or monitored by departments within the agency's jurisdiction. The State Department of Mental Health and the State Department of Developmental Services would be required to develop technical assistance and training programs to assist facilities operated by those departments to achieve this reduction. The measure

would also require the California Health and Human Services Agency to develop similar assistance and training programs to support various other facilities including psychiatric units of general acute care hospitals, and acute psychiatric hospitals. The agency and its departments would further be required to collect data regarding the use of seclusion and behavioral restraints and make it available to the public on the Internet.

The measure would also clarify the right of a person in a mental health facility to be free from: 1) the use of seclusion and behavioral restraints imposed as a means of coercion, discipline, convenience, or retaliation by staff, and 2) drugs used to control behavior or to restrict freedom of movement if the drug is not a standard treatment for the person's condition.

The Department of Mental Health (DMH) indicates that several recent State and national reports cite the improper use of seclusion and behavioral restraints which resulted in injury or death to facility residents or staff. DMH supports SB 130 because it would establish important requirements and training enhancements for staff utilizing seclusion and behavioral restraints, which will protect both clients and staff. DMH reports that the mental health community has worked closely with the author to shape this measure. Support for SB 130 is consistent with Board policy to support legislation which would reform the Lanterman Petris Short Act and related laws that assist and protect the mentally ill. **Therefore, our Sacramento advocates will support SB 130.**

SB 130 is sponsored by Protection and Advocacy, Inc. It is supported by the California Association of Mental Health Patients' Rights Advocates, California Association of Social Rehabilitation Agencies, California Network of Mental Health Clients, California Nurses Association, California Psychological Association, Consumers Self-Help, and the National Alliance for the Mentally Ill of California. According to the author's staff, because of recent amendments, there is no longer any registered opposition to the bill. SB 130 passed the Assembly Appropriations Committee on August 29, 2003 by a vote of 16 to 8, and is awaiting consideration on the Assembly Floor.

#### **Status of County-Interest Legislation**

Friday, September 12, 2003, will be the last day for each house of the Legislature to pass bills. Attachment III is a listing of bills on which we have taken a position as of September 4, 2003.

**County-supported AB 1405 (Wolk and Harman)**, which encourages the California Environmental Protection Agency and the Resources Agency to provide assistance and grants to those who choose to participate in watershed enhancement and restoration, was passed by the Senate on September 3, 2003, by a vote of 25 to 12, and sent to the Assembly for concurrence in the Senate's amendments.

Senate Appropriations Suspense File
AB 1479	Chu	Support (Board Memo: 7/9/03)	Would delete the Department of Motor Vehicles exclusive control over the monitoring of the traffic violator school (TVS) program and continue the courts' control over the monitoring of the TVS program.
